

1. Download bootstrap files as source files from the given location

<http://getbootstrap.com/>

Answer :

Go to <https://getbootstrap.com>.

Click **Download** → **Source files (ZIP)**.

2. Unzip the contents and add the right files in the correct location of your MyExercise dynamic web project in eclipse.

Answer :

Unzip the folder —Check:

`bootstrap.min.css` → inside `css` folder

`bootstrap.bundle.min.js` → inside `js` folder

Copy these files into your project folder

Link them in your HTML head using relative paths.

3. Create a OldLook.html web page in the current project with the following content

Tags	-	Contents
H1	-	Welcome to my page
P	-	this is a trial for bootstrap
Table		
TR		
TH	-	col1
TH	-	col2
TR		
TD	-	data1
TD	-	data2
TR		
TD	-	data3
TD	-	data4

Answer :

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <title>Old Look Page</title>
  <link rel="stylesheet" href="css/bootstrap.min.css">
</head>
<body class="p-4">

  <h1>Welcome to my page</h1>
  <p> this is a trial for bootstrap </p>

  <table class="table table-bordered mt-4">
    <tr>
      <th>Col1</th>
      <th>Col2</th>
    </tr>
    <tr>
      <td>Data1</td>
      <td>Data2</td>
    </tr>
    <tr>
      <td>Data3</td>
      <td>Data4</td>
    </tr>
  </table>

  <script src="js/bootstrap.bundle.min.js"></script>
</body>
</html>
```

4. Create a webpage which displays different images on screen as you resize the browser. Take 4 images like img1.jpg , img2.jpg, img3.jpg , img4.jpg which should be displayed on the web page and only one should be visible at any time as you keep resizing the screen it should start changing to img2 and then to img3 and so on.

Answer

```
<!DOCTYPE html>
<html lang="en">
  <head>
    <meta charset="UTF-8">
    <title>Responsive Image Change</title>
    <link rel="stylesheet" href="css/bootstrap.min.css">
  </head>
  <body>

    <div class="container text-center mt-4">
      
      
      
      
    </div>

  </body>
</html>
```

5. Create a small table with 2 columns Name and contact no, Populate the table with 5 of your friends names and their contact nos. When the mouse is taken over the table it should highlight the row where the mouse is placed.(hint : use table hover).

Answer :

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <title>Old Look Page</title>
  <link rel="stylesheet" href="css/bootstrap.min.css">
</head>
<body class="p-4">

  <h1>Welcome to Bootstrap page</h1>
  <p>Bootstrap Table</p>

  <table class="table table-bordered mt-4">
    <tr>
      <th>Col1</th>
      <th>Col2</th>
    </tr>
    <tr>
      <td>Data1</td>
      <td>Data2</td>
    </tr>
    <tr>
      <td>Data3</td>
      <td>Data4</td>
    </tr>
  </table>

  <script src="js/bootstrap.bundle.min.js"></script>
</body>
</html>
```

6. Create a table of food contents with its calorie value.

Display the rows of food contents with calories

<=300 in light green background,

301 to 700 in light blue,

700 - 1200 in light orange

>1200 in light red. (Hint: use table table-striped)

Answer :

```
<!DOCTYPE html>
<html lang="en">
  <head>
    <meta charset="UTF-8" />
    <title>Food Calorie Table</title>
    <link rel="stylesheet" href="css/bootstrap.min.css" />
    <style>
      .low {
        background-color: lightgreen;
      }
      .medium {
        background-color: lightblue;
      }
      .high {
        background-color: lightsalmon;
      }
      .veryhigh {
        background-color: lightcoral;
      }
    </style>
  </head>
  <body class="p-4">
    <table class="table table-striped table-bordered text-center">
      <thead class="table-dark">
        <tr>
          <th>Food Item</th>
          <th>Calories</th>
        </tr>
      </thead>
      <tbody>
        <tr class="low">
          <td>Apple</td>
          <td>150</td>
        </tr>
        <tr class="medium">
          <td>Rice</td>
          <td>500</td>
        </tr>
      </tbody>
    </table>
  </body>
</html>
```

```

    </tr>
    <tr class="high">
        <td>Juice</td>
        <td>950</td>
    </tr>
    <tr class="veryhigh">
        <td>Snacks</td>
        <td>1300</td>
    </tr>
</tbody>
</table>
</body>
</html>

```

7. Create a webpage to display Tulips.jpg from sample pictures of your machine. Ensure the image has soft round edges and as you resize the screen, the image should also resize itself and fit its display to full page size.

Answer :

```

<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8" />
    <title>Responsive Tulip Image</title>
    <link rel="stylesheet" href="css/bootstrap.min.css" />
    <style>
        img {
            border-radius: 25px;
        }
    </style>
</head>
<body>
    <div class="container-fluid p-0">
        
    </div>
</body>
</html>

```
